

Registration for the care of a child during distance education

The rotating class beginning April 19th, 2021, is the school's contribution to curbing pandemic by consistently reducing contact. Therefore, the possibility of home care must be carefully considered prior to enrollment. The childcare program applies only to grades 1 through 6 in all types of schools. For pupils with a need for special educational support in special schools or in schools of joint learning, which requires special care (e.g. in the special areas of mental development and physical and motor development), this must be ensured in consultation with the parents or guardians, even in higher age groups. The program is available to children with an OGS or childcare contract at the usual times. For children without an OGS or childcare contract, care can be provided during school hours. Individual arrangements can be made on site.

I hereby declare,

Name, first name		
Address		
Phone		
E-mail address		

that my child

Name, first name	
Date of birth	
Class	

requires supervision during the suspension of face-to-face classes (beginning April 19th, 2021) on the following days:

Days Please enter here the days/period (Monday-Friday, there is no care on weekends)	Time

A statement from the employer is not required.

Explanation:

We declare that we require care for our child on the days listed above.

We accept that despite the usual amount of time spent in care, the usual meals may be replaced by other forms such as packed lunches.
